Office Action Summary	Application No. 10/040,929	Applicant(s) DILIP ET AL.	
	Examiner Jocelyn Greimel	Art Unit 3693	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This communication is in response to Applicant's Amendments and Remarks filed 04 May 2007. Claims 1, 3, 4, 7, 8, 11, 13, 15-16, 19, 20, 24, 31, 33, and 39 have been amended. Claims 45-72 are added herein. In view of Applicant's claims, the election to one of the following inventions is deemed necessary. The restrictions cited are as stated below:

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-23 are drawn to methods for "authenticating" a user's ability to access an account via data comparison.

II. Claims 31-44 are drawn to methods for "authorizing" a user to access an account via data comparison.

III. Claims 24-30 are drawn to a method for authenticating a user's ability to access an account via transfer confirmation.

IV. Claims 45-72 are drawn to a method, system and apparatus for user authentication at a plurality of institutions involving collection of information of the plurality of institutions, authentication rules, risk information and authorization.

3. The inventions are distinct, each from the other because of the following reasons:

Art Unit: 3693

(a) Inventions I-IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the subcombinations have separate utilities such as authentication methods, authorization methods and risk information related to authorization and authentication.

4. The independent claims in each Group I-IV recite limitations that are not found together in a common independent claim of the other group, thus it is evidence that Applicant believes a distinct invention combination lies within each set of independent claims. Also, dependent claims then append a multiple of distinct inventive concepts for which Applicant's submission is evidence that Applicant believes each supports a distinct reason for invention. See MPEP § 806.05(d).

5. A telephone call for the restriction was not made as the restriction is complicated, especially in light of the amendments to the claims and the newly added claims.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different concepts, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of one of the inventions I and IV to be examined even though the requirement be traversed (37 C.F.R. § 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

8. A shortened statutory period for response to this action is set to expire 1 month from the mail date of this letter. Failure to respond within the period for response will result in ABANDONMENT of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
